

YesLiberia Usability Testing Subject Consent Form

The purpose of this study is to evaluate the YesLiberia website and determine ways in which the website can be improved.

Your participation is anonymous and voluntary. You will use a web browser to work through specific tasks on YesLiberia and then fill out a questionnaire about the experience.

As you work, you will be observed by a facilitator who will be taking notes. The screen activity and audio from the session may also be recorded.

Please try to 'think aloud' during the activity, talking through what you are thinking as you use the website. The facilitator might remind you to think aloud, if you fall silent for a period of time.

The entire study should take no more than an hour. If for any reason you wish to end the activity early, please notify the facilitator.

I _____ have read and fully understood the extent of the study and any risks involved. I sign here acknowledging the above information.

Participant Signature: _____

Date: _____
